

Num. 3313

The Caledonian Mercury.

Edinburgh, Monday, December 7, 1741.

From the London Gazette, Dec. 1.
Naples, Nov. 7, N. S.

By the Spanish Courier we learn, that an Expedition of 13,000 Men under the Direction of M. de Montemar is sailed from Barcelona, to be followed by another of 16,000 Men likewise from Barcelona, and joined by a Body of Neapolitan Troops, viz. Ten Battallions out of the Foot Regiments, the Queen, Enau, Anvers, and Guidi; eight Companies of the Italian and Swiss Guards, some Companies of Gunners, Squadrons of Cuirassiers and Dragoons. This Day his Sicilian Majesty reviewed 4000 of his Troops near this City, which are to march to Morrow, to be joined by 6000 more Horse and Foot from Capua, Gaeta, &c. with a Train of Artillery, all to be transported hence by Sea, as said, to the Presidii, conyoyed by the Parthenope and St. Philip Men of War.

Leghorn, Nov. 17. The Arrival of a great Body of Spanish Troops on the Coasts of Italy has put this Place into an Alarm, so that we are working on the Fortifications and adding new Batteries, also at Porto Feraio and Grosseto. 140 Gunners landed the 10th at Porto Longone from Spain; 100 Transports, supposed from Barcelona, sailed through the Channel of Piombino on their Course to Orbitello and other Places of the Presidii.

Florence, Nov. 19. Two Estafettes are arrived from Grosseto with Notice, That the Transports were arrived at Orbitello, Porto Hercole and the rest of the Presidii where the Spanish Troops were landing.

Weſtminſter, Dec. 1. This Day his Majesty came to the House of Peers, and being in his Royal Robes, seated on the Throne with the usual Sollemnity, Sir Charles Dalton, Gentleman Uther or the Black Rod, was sent with a Message to the House of Commons commanding their Attendance in the House of Peers. The Commons being come thither accordingly, his Majesty's Pleasure was signified to them by the Lord Chancellor, That they would return to their Houſe and chufe a Speaker, and present him to his Majesty on Friday the 4th instant. They returned accordingly,

and unanimously chose the Rt. Hon. Arthur Onslow to be their Speaker.

AWye's Letter, verbatim, London, Dec. 1.
Since our last arrived a French Mail.

THIS Day, when the Parliament met, the Commons were sworn in the Court of Wards by the Duke of Dorset, and there was the fullest House known for many Years the first Day of a Parliament; no less than 470 were sworn. Many Peers also took the Oaths and their Seats.

Yesterdays being St. Andrew's Day, Patron of Scotland, his Majesty, the Royal Family and the Court wore Crosses. And No. 5022 was drawn a Prize of 10000 l. the Property of Mr. Cock of Camberwell, Partner with Mr. Alderman Arnold of Cheapside; 47650 a Prize of 1000 l. 36800, 10399, 13783, 19544, 27288, of 500 l. each, 35443, 42791, 50907 and 49290, 100 l. each. And 'tis observable that in the 2d Bridge Lottery a 16000 l. Prize was drawn on St. Andrew's Day.

As to Admiral Haddock's Death, 'tis said the Dutch Envoy here, on receiving Advice thereof, communicated the same to the King.

As for Admiral Vernon, Letters from Jamaica advise that he is returned to Cumberland Harbour from St. Jago. Other Letters thence say, that the Weymouth of 60 Guns has taken a Ship from the Havannah with 200,000 l. worth aboard; and that the Augusta, another 60 Gun Ship, has taken another 20 Gun Privateer from thence.

Advices from abroad by the above Mail are: From Vienna, that the Queen of Hungary's Affairs are still in a better State than they appear; and tho' she has many Enemies, yet the advanced Sealon will stop their Progress, till the numerous Armies she has on foot can draw together from Moravia, Tyrol, &c. when where assembled must at least harass the Enemies during the Winter; and that against Spring they are pretty sure of Assistance from several Quarters. Tho' it is observed, 'That the Court of Vienna can expect no Relief from that Nation, which has tamely allowed the Spaniards to invade the Dominions of Italy, by transporting by Sea 25450 Foot, 3300 Horse and 2072 Dragoons; all which are

soon to be followed by another Convoy.' Other Letters from Vienna say, that they are entirely obliged to the King of Prussia for that City's not being besieged, who might have hindred C. Neuperg to march up to its Relief. They seem in great Hopes that the Electors of Bavaria and Saxon will fall out about the Crown of Bohemia, both having Pretensions to it; and that the Excesses and Devastations which the Bavarian and French Troops commit every where will alienate the Affections of the People. On the other hand we see the following Letter from

Paris, Dec. 1, N. S. A Courier is arrived here with Advice that the City of Prague surrendered the 26th ult. without Resistance; the immediate Consequence of which is, That the Elector of Bavaria will cause himself be proclaimed King of Bohemia. The Reports of a Peace between the Q. of Hungary and K. of Prussia are only Artifice of the Court of Vienna, to suspend the Saxon Troops marching till C. Neuperg got into Bohemia.— It is not doubted but the States of Italy will receive the Spaniards with open Arms, who have a recent Instance of the Mildness of Spanish Government, in that of the Kingdom of the Two Sicilies, where, far from exhausting their Treasure, Riches are brought in, and even Money sent 'em from Spain; while on the other hand they cannot forget that the Emperor annually drew Millions from them. The great Design now, indeed, is to procure Don Philip an Establishment worthy of his Birth, and his Alliance with the Daughter of the Head of the Bourbon House. We hear that part of the Spanish Troops disembarked at Civita Vecchia, and are to be followed by Don Philip in Person, and 'tis said will take his Route thro' Languedoc, Provence, &c.— Cardinal Fleury has been slightly indisposed, and is advised to drink Goats Milk.

From the Evening Posts, Dec. 1.
Extrait of a Letter from Prague, dated Nov. 18.
wrote a Week before the Attack of that Place.

The 14th of this Month an Aid de Camp of the French Army, accompanied by another Officer, came to this City, and ask'd. to speak with the Governor. Whereupon they were both conducted blindfold to General Ogilvy. They did not summons him to yield up the Place, as has been reported, but declared to him, 'That a free Passage to the French Troops having been no where refused in the whole Empire, they were charged likewise to demand it through that City.' To

which the Governor made Answer, 'I am ordered if any foreign Troops approach or attack the Town of Prague, to defend it to the last Extremity. I have served the House of Austria faithfully ever since my Youth, and am resolved in my advanced Years to behave with the same Fidelity towards the Queen of Hungary my Sovereign.' The two Officers were then conducted out of the City.

Vienna, Nov. 22. The Great Duke having sent to the Prince of Anhalt-Dessau to know what Orders he had received from his Court, a Prussian Officer arrived in the Army on the 19th, accompanied by a Trumpeter, with this Answer, That he had no Orders to receive for the future but from Russia, and that he expected Directions thence every Day how to act.

L O N D O N, Dec. 1.

We hear that a violent Fever rages at Bruges, Antwerp, and other Parts of Flanders, and carries off Numbers of People every Day.

On Saturday last her Grace the Duchess of Buckingham arrived at Dover from France.

From Mount's Bay we hear, that on Thursday last, about four in the Morning, the Betty, Capt. Temple Chevalier, bound from Maryland to London, was by a violent Storm drove upon the Rocks of that Place in miserable Plight; that she had several Holes in her Bottom, and 'twas expected she would sink downright the following Tide; that not a Hogshead of her Tobacco was saved, but that all her People, except the Mate, who was wash'd over board and drowned some Leagues off at Sea, were preserved.

The Greenwich, M'Kenzie, from Jamaica for London, is lost off Beachy-Head, and several of the Company drowned.

The Mary, Taylor, from Southampton to Dublin, is lost near Bishops Castle in Wales.

The Expedition, Talbot, from Messina for London, is ashore near Boulogne in France, and 'tis feared will be lost.

The —, Capt. Alexander Long, bound from Hull for New-England, with sixty Bales of Yorkshire Cloth, was taken on the 16th of October, by a Spanish Privateer, 40 Leagues W.S.W. of Scilly, and carried into Bilboa.

On Saturday the Owners of the Mary, Capt. Lynch, bound from Montserrat to London, received Advice of her being taken in the Latitude of Bermudas, by a Spanish Privateer, who took Capt. Lynch into their Ship; but a Storm arising

the Vessels were separated, and the Privateer soon after taken herself and carry'd into Jamaica; so that the Captain has got his Liberty, but the Ship is lost.

The Vernon, Sherbourn, from Nervis for London, is taken by a Spanish Privateer and carried into St. Sebastians.

"Tis said the Elector of Bavaria has 12000 Piastres remitted to him monthly from Spain.

On Saturday No. 10,559 was drawn a Prize of 2000 l. No. 45,783, 1000 l. No. 50,634, 500 l. No. 20,791, 40,798, 33,987, 37,627, 38,670, 36,628, 41,213, 38,537, 34,658, 100 l. each.

From Woolwich we learn, that they have lately added to the Train of Artillery a Body of Miners chiefly raised in Cornwall, to be employed mostly in Sieges.

Yesterday being the Anniversary Meeting of the Royal Society, Martin Folke, Esq; was chosen their President, in room of Sir Hantle Sloan, who has resign'd.

To the L—— and E—— P—— of G—— B——,
An EPIGRAM.

Once in a Year a Fast is join'd with Prayer,
That Heav'n in Mercy may three Kingdoms spare:
But if one darling * Sin ye let remain,
Your Prayers are fruitless, and your Fasts are vain.
Purge and be clean, that Obstacle surmount,
Call the Corruptor to a strict Account;
Your Cause of Misery no more approve,
The Effect will cease if you the Cause remove.

* Corruption.

EDINBURGH, Dec. 8.

Extracts of Letters from Jamaica, Sept. 13, 14.

The Montrose of Glasgow, Capt. Andrew Crawford, was in the Night of the 25th ult. cast away off of Portland Keys, the Captain and Crew are all safe, but 'tis feared the Vessel, as well as Cargo, will turn to little Account. One of Admiral Vernon's Squadron touched here last Saturday, which had taken a Spanish Privateer of the Hava-nnah, the Crew whereof declared that the Admiral Ship had been destroyed by Lightning, whereby also most of the Town was consumed. Trade here goes swimmingly on, so that Freighers esteem themselves but poorly off when they do not clear above Cent. per Cent. even the Spanish Sloops touch and traffick, and are in a manner winked at; and several French and Dutch Ships having been taken with Stores aboard, are condemned here. We have little these 5 Weeks past from Cuba, except political Letters, which contain the highest Reflections upon the G——,

somuch that moderate People here scarce credit them; such as: 'Our fine G—— is advanced into the Country to within 18 Miles of St. Jago, but will not advance an Inch further, tho' he has 1200 Negroes to clear the Way, and might have 3000 more from Jamaica, if he will but condescend to ask them. If the Admiral should send the Tars ashore to do the Business for him, they must, while on Land, be under the Authority of that unactive Man. Thus must we, in all Probability, lose the Opportunity of possessing St. Jago, (which opens a clear Command to the Gulf of Mexico) a fine rich healthful Place, and tho' almost defenceless on the Land-side, yet it is well fortified by Sea. The Admiral has sent two Ships to try the Soundings, and if there are the least Dawn of Hopes of Success, will be at it. Fresh Provisions are as plentiful aboard the Fleet as in Leadenhall Market, yet ashore they seem starying, nor is any Cattle allowed to be brought into the Camp: Yea, lately the G—— caused dress and serve up to his Table a Colt, which may sometime serve as a Proof of the Army's Want of Provisions, &c.

P.S. 'Tis said Admiral Vernon intends to settle the North Americans, with the scattered Remains of the Colony of Georgia, on the I——

These Letters mention the Death of Capt. John Gibson, Son of Mr. Gibson of Adieston in Mid-Lothian, a worthy promising Youth.
